Summary

Passionate full-stack developer in training transitioning from 6+ years of analytical roles in financial services to software development. Currently completing intensive training in both full-stack development (JavaScript, React, Node.js) and automated testing (WebdriverIO, Mocha) through EPAM Systems. Leveraging hands-on project experience, technical certifications, and proven problem-solving skills. Equipped with dual expertise in development and QA automation, complemented by strong foundations in SDLC/STLC processes.
